Marginal Areas Program

DUC's Marginal Areas Program is an alternative management strategy to address saline, weedy and hard-to-access field areas. Receive a financial incentive to seed marginal acres to perennial forages. The per-acre payment, agronomic benefits of the practice, and the forage are all yours.

Financial incentive

Agronomic benefits

Supports wildlife

DETAILS:

- ✓ Receive \$135/acre
- ✓ Additional incentives possible through FCC's Sustainability Incentive Program
- ✓ Capped at maximum 40 acres per quarter
- ✓ Includes a pollinator-friendly seed blend to further boost ag-environmental benefits
