

Winter Wheat

from Ducks Unlimited Canada

Love the land

Diversify your rotation with high-yielding, disease-resistant winter wheat.

Reduce spring workload. Harvest early. Increase profitability. Reduce soil erosion. Manage herbicide resistance. Increase effectiveness of crop protection products.

Details

- ✓ DUC pays you \$20/acre to a maximum of \$5,000.
- ✓ Receive PRS Crop Casting for one field from WESTERN AG - a \$500 value!
- ✓ Benefit from expert agronomic support from DUC's winter wheat specialists.
- ✓ 50 acre minimum to qualify.
- ✓ Field(s) must fall within DUC's Target Areas to qualify (see map on reverse side).

✓ Keep the incentives even if the field winterkills - as long as you try the crop again in the future.
