

Marginal Areas Program

from Ducks Unlimited Canada

Love the land

DUC pays producers to seed underperforming crop areas to grass.

Reduce input costs, improve returns in saline areas, create a buffer zone to meet herbicide guidelines and outcompete kochia and foxtail barley.

Details

- ✓ Target marginal areas within annually cropped fields.
 - ✓ No acre minimum to qualify.
 - ✓ 10-year term agreement with a prorated buyout option.
 - ✓ Contracts are not tied to land title.
 - ✓ Field(s) must fall within DUC Target Areas to qualify (see map on reverse side).
- ✓ Spring and dormant seeding are both eligible. Touch-up seeding is permitted at any time during the term.
 - ✓ Grazing, haying and mowing are permitted.
 - ✓ Seed can be sourced through DUC or a retailer of the producer's choice. If sourced through DUC, costs are deducted from the per-acre payment.
 - ✓  Additional incentives may be available for FCC customers. Talk to DUC for details.
