

# Marginal Areas Program

from Ducks Unlimited Canada

## Love the land

DUC pays producers \$125 per acre to seed underperforming crop areas to grass. Control kochia and foxtail barley, improve returns in saline areas, reduce input costs and create a buffer zone to meet herbicide guidelines.

### Details

- ✓ Target marginal areas within annually cropped fields.
  - ✓ No acre minimum to qualify.
  - ✓ 10-year term agreement with a prorated buyout option.
  - ✓ Contracts are not tied to land title.
  - ✓ Field(s) must fall within DUC Target Areas to qualify (see map on reverse side).
- ✓ Spring and dormant seeding are both eligible. Touch-up seeding is permitted at any time during the term.
  - ✓ Grazing, haying and mowing are permitted.
  - ✓ Seed can be sourced through any retailer of the producer's choice.
  - ✓  Additional incentives may be available for FCC customers. Talk to DUC for details.
